Electric Park.

The promise of a really good show this week at our amusement place was faithfully kept. That the enjoyable performance pleased the large audience present was evidenced by the liberal applause accorded each performer and each act. Gross and Buskirk were highly pleasing in their musical act. They introduced a number of well known instruments and also several novelties in the way of musical instruments. Mr. Gross's slight of hand was good, and Mr. Buskirk's dancing caught the crowd. Nunn and Bradford were good in their sketch, which was full of good singing and witty repartee. Miss Bradford is a clever singer of coon songs and also rendered other catchy songs, while Mr. Nunn's eccentric dancing was up-to-date. Six big acts make up the program. Go out tonight and see for yourself, and you will go again before the week is over.

The bone was properly set, but would not heal, and last week lockjaw developed.

BOARD OF TRADE.

Some Obstacles That Stand in the Way of the Growth of Maysville.

MUCH FOOD FOR CALM THOUGHT

The organization that meets no difficulties is not a necessity. The one under consideration has been confronted by many opposing forces.

First—Selfishness and a lack of public spirit, which prompts one to think all the service should be contributed by others.

Second—The desire of property holders to realize too much for sites suitable for manufacturing establishments. Think of this, you holders of large tracts of vacant and now unprofitable real estate. Think of additional value given to your holdings by the increase of manufacturing in our city.

Third—The disposition to criticize those who are endeavoring to add to our material wealth by attracting new trade and new people to our community.

Fourth—Some think the sole object of the Board of Trade is to keep people from buying in other markets. The organization does try to stimulate our citizens to patronize home institutions, but no such pledge is required as a requisite to membership. The merchants may by enterprise, push and diligence come nearer solving this than can any other agent. Keep abreast of the times in your business—do not be a croaker.

Remember, though the times be troublous, "Laugh and the world laughs with you, Weep and you weep alone."

You will not attract trade by telling how many people do their shopping some place else.

Fifth—The movement to attract trade by free ferrage and by offering special attractions during the very heated term has not come up to the expectations of some, but continue to evidence your desire for an expansion of commercial relations for twelve months and see what grand results will come to reward you for what is but a meager outlay. Nothing is accomplished except by persistent and determined effort. Having put our shoulders to the wheel let all push together without ceasing.

Sixth—Every man in the city and many in the county should belong to the Board of Trade. Then no one could say "You folks should do a certain thing for the public good," but all say, "We will do it," and it will come to pass.

TO THE POINT.

Green Keller Replies to Criticism of His Course.

MANLY STAND BY A MANLY MAN.

"We regret to see our esteemed friend and fellow-newspaper servant, Green R. Keller, of The Courier Mercury, take his defeat for Secretary of State so ungracefully. He says he will support the ticket, but at the same time says things he may regret in the future. A life-long Democrat oughtn't to sully his record by writing as he does."—W. P. Walton in The Stanford Interior Journal.

My Dear Friend Walton: I know I have not a warmer personal friend in Kentucky than yourself. Time and opportunity have proved that you have been my political supporter in all my aspirations, and I assure you that you never had a more ardent admirer than the undersigned. Time or circumstances cannot change my admiration for you, not only as a man and brother editor, but as a lover of truth and justice, and a fearless writer against all manner of crime. When your section was almost overrun with murderers and outlaws, you took your life in your hands and offered it to the cause of peace and truth. I have made it my business for years to read and almost worship your matchless semi-weekly, and my sons have been taught by me to look upon your fearless and constant fight against wrong as an example worthy of their emulation.

Now what shall I do? What shall I think? Shall I follow you in your support of political rascality, or shall I tell the truth? Do you think I sully the record of a life-long Democrat by publishing the facts? Dare you say I have written an untruth about the Louisville Convention?

Dare you publish a statement like this: "The Democratic Convention at Louisville was one of the fairest and most honorably conducted gatherings ever held in Kentucky. The Hon. William Goebel won his nomination honestly, and no Democrat in Kentucky can raise his voice against it. The delegates to the people of the various counties met and nominated the choice of the majority of the Democrats of Kentucky. Chairman Redwine was exceedingly fair in his rulings, and every man entitled to be heard was heard, and after a fair and full hearing before the Committee on Credentials, and in convention every question was decided on its merits."

If you can't say this, "or words to that effect," it becomes my time to say: "A life-long supporter of truth and justice oughtn't to sully his record by writing as he does."

Dear Walton, you know that I write only the truth. You know the truth will prevail. You know that your heart is not villainous, and you know that you do not in your heart of hearts approve of the proceedings of the Louisville Convention.

You know that the work of that convention will do more to teach political rascality and dishonesty than anything that can be imagined. Don't you?

Now as to hurting the party and the party's chances in Kentucky.

Nothing I can write will change the result. Mr. Goebel and his friends care nothing for what I say. Mr. Goebel has the election machinery in his hands, and he will be the next Governor, and don't you forget it. For this reason I have no hesitation in telling the truth about the Louisville Convention, because it matters not what is said or done, so the result will be all right. Yours for Democracy, honesty and truth. G. R. KELLER.

P. S.—As for the Secretary of State, it was offered to me by Mr. Goebel's managers at Louisville for 44 votes for Redwine and I rejected it upon the advice of my two sons, who were present when the offer was made. That's where I was smarter than W. J. S. Yours again for D. H. and L. G. R. K.

NEWSY NOTES FROM NATURE'S GREAT HIGHWAY.

Falling at this point.

The Kanawha river packet Avalon was down yesterday for Louisville.

There is no telling now when a steamboat will arrive, as the water in the river at some places is so shallow that skiffs can barely navigate. A good big rain would help matters wonderfully.

"The Georgia Lee, leaving here last Tuesday," says The Waterways Journal of St. Louis, "had 55 cabin passengers and a good trip of freight. The Lee Line continues to keep up the reputation of first class accommodation and service and officers. Passengers always return well pleased with the trip and the treatment they receive, never being compelled to run up town at landings to get something to eat. It is worth a couple of dollars more to travel on a magnificent floating palace. It is worth the difference to travel with select and refined passengers, not to speak of the service and table." The Pittsburgh and Cincinnati Packet Line running boats out of Cincinnati, is always spoken of in the same manner. They treat their passengers well, feed them well and give them clean beds. These may seem to be small things, but they are important, and the passengers of these boats are always their best advertisements. The two progressive steamboat lines of the Ohio and Mississippi rivers are the Pittsburgh and Cincinnati Line and the Lee Line.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
